### Important Note:

There are many black sheep in this area, which require the investor to transfer the funds to their own company account ! Especially in China, Hong Kong, Nigeria, Dubai and India! Please only work with an accredited government agent like us!

You also need to know that there are two different programs in Vanuatu! One is especially for citizens from China and Korea, which is a bit more expensive, the other is for the rest of the nationalities. An agency claims that it has the exclusive contract. That's a scam!

## *Impression of Vanuatu*

Impressions of Vanuatu. We have put together a few impressions of Vanuatu on this page. We would like to introduce you to the country and its people. Embrace the freedom to do whatever you want, whenever you want.

## Vanuatu Facts

### You have to know about Vanuatu:

It became known through the last paradise on earth.

**Vanuatu**, between New Zealand and Australia, an archipelago of more than 83 islands, which stretch over more than 1300 KM in the Pacific Ocean, became known as the **last discovered paradise on earth**. According to the Happy Planet Index, live in Vanuatu the **happiest people in the world**.

Situated on Tanna Island, Mount Yasur is probably one of the most popular tourist destinations in Vanuatu. It is an active volcano, towering 361 meters (1,184 feet) above sea level.

One of the most amazing blue holes in the world can be found on Espiritu Santo. The breath-taking blue holes, which are naturally-formed swimming holes with practically unreal blue waters - caused by fresh water springs climbing via sedimentary rocks, blossom across Espiritu Santo.

Amazing coral reefs and canyons decorate the shores and waterside of Vanuatu. WWII left a long lasting legacy of shipwrecks. The best known shipwreck, the S.S. President State Coolidge, was an ocean liner transformed into a troop ship when it faced a "friendly fire" U.S. mine just off Espiritu Santo. Weapons and also headgears still litter the deck of the ship, the world's largest shipwreck accessible to scuba divers. A lot of the dives are relatively deep, in the 100-foot adventure, which requires regular decompression stops.

### Risk considerations basic rules

It should be considered that the value of investments, as of the income from them, may go down as well as up, and is not guaranteed by any business forecasts, meaning that investors may not get back the amount of money invested. It cannot be considered as a reliable track all past performances as a general guide for future performances. Another important aspect is that exchange rate changes may also cause the value of overseas Investments or investments denominated in different currencies to rise or fall.

That is why we recommend investors to take advices from their own independent, professional financial advisers before making an investment decision and are responsible for ascertaining any income tax or other tax consequences which may affect their acquisition of any investment.
